

## MAGNETICS

### INDUCTOR - Line Reactor

#### Features:

- Inductance: 69.3mH ( $\pm 5\%$ )
- Current Rating: 35A, 60Hz
- Operating Voltage: 3.3kV
- PWV: 8.0kV
- Air - Cooled
- Weight: 200 lbs

Espey Mfg. designs and manufactures inductors and reactors including air and water-cooled designs up to 5000lbs including air-cored, iron-cored, Met-Glas®, ferrite and powdered metal cores.

#### Specifications:

##### *Electrical Specifications*

- **Inductance:** 693mH ( $\pm 5\%$ )
- **Current Rating:** 35A, 60Hz
- **PWV:** 8kV

##### *Mechanical Specifications*

- **Insulation class:** 200°C
  - **Weight:** 200 lbs
- VPI – Vacuum Pressure Impregnated  
Air Cooled
