

## MAGNETICS

### INDUCTOR - Line Reactor

- Shipboard Application

Espey Mfg. designs and manufactures inductors and reactors including air and water-cooled designs up to 5000lbs including air-cored, iron-cored, Met-Glas®, ferrite and powdered metal cores.

#### Features:

- Inductance: 69.3mH ( $\pm$  5%)
- Current Rating: 35A, 60Hz
- Operating Voltage: 3.3kV
- PWV: 8.0kV
- Air - Cooled
- Weight: 200 lbs

#### Specifications:

##### Electrical Specifications

- **Inductance:** 693mH ( $\pm$  5%)
- **Current Rating:** 35A, 60Hz
- **PWV:** 8kV

##### Mechanical Specifications

- **Insulation class:** 200°C
- **Weight:** 200 lbs

VPI – Vacuum Pressure Impregnated  
Air Cooled
