POWER TRANSFORMERS

- Dry-type Distribution Class - 1-2500kVA

Espey Mfg. designs and manufactures medium voltage dry-type power transformers up to 2.5MVA air-cooled. Espey transformers are used in military, heavy industrial and high reliability applications.

Features:

- Single (1) Phase AND Three (3) Phase Available
- 1 thru 2500kVA Rating
- Medium Voltage up to 15kV class
- NEMA 3, 3R, 4, 4X, and 9 enclosures

Specifications:

Electrical Specifications

- **INPUT VOLTAGE:**
380V, Delta, 50/60Hz, 3 phase
- **OUTPUT VOLTAGE:**
208/120V, Wye
- **RATING:**
18kVA

Mechanical Specifications

- **Enclosure:** NEMA 3
- **Mounting:** Deck or Ground Based
- **Insulation Class:** 220°C
- **Temperature Rise:** Winding 130°C Surface 25°C

NEMA-ST-20
